#MSCFSecure, November 13-17: A core value of MSCF is providing security for members and their families. Our goal during this week is to ensure all our members are aware of and taking full advantage of some of the ways MSCF provides security by:

- **Distributing a certificate of liability insurance coverage card to every member.**
- **Making sure all members have designated a beneficiary for their NEA Life Insurance.**
- **Making sure all members have signed up for free identity theft recovery through ESI.**

This week, local chapter leaders should be distributing information and encouraging you to take advantage of these no cost benefits that are provided to you through your active membership in MSCF. There are many member benefits available to you via ESI, AFT and NEA. Check them out today!
